WORK EXPERIENCE

RPA Developer Speridian Technologies

08/2019 - Present

Bangalore

Achievements/Tasks

- Handled Speridian Technology's **first Automation Anywhere** project end-to-end
- Worked on both **Automation Anywhere** and **UiPath** projects
- Selected as "**Finalist**" in the **Automation Anywhere 2021 Botwars Hackathon**
- Received **appreciation** for his [technical blog](#) on several occasions

PROJECTS

SuccessFactors: Launch Feedback Form(A360)

- Peers had to be randomly selected for the 360 Feedback form, and uploaded to the "Select Employee" section under the PMGM module. An enhancement was requested, where the bot was supposed to route the forms to second stage

SuccessFactors: Import Overall Rating(A360)

- A report generated in the SuccessFactors Report Centre had to be downloaded and a series of operations had to be performed onto it before uploading it to the "Import Overall Score" page. The bot had to then zip the downloaded and processed file into the "Processed" folder

SAP: GST Verification(V11)

- A report containing Vendor details had to be validated by uploading it to SuperTax and then downloading the validated report. The vendors whose GST is either suspended or cancelled had to be blocked in SAP

Oracle,Smartsheet: PS Tool Update(UiPath)

- Tool details had to be updated as per details supplied in Smartsheet for Sole Supplier and Preferred Supplier, into the Oracle CRM

Oracle: Purchase Order Processing(UiPath)

- Data from Supplier Chain Purchase Orders had to be extracted and added to Oracle Database. AI Center was used here, along with Action Center and Storage Bucket to introduce a human into the loop for document validation

Epic Matters: Medicare/Medicaid Crossover(UiPath)

- Patient accounts had to be validated and closed/deferred based on a series of conditions. The application was hosted on a separate server and could only be accessed through Citrix so a Citrix Automation was developed

EDUCATION

Bachelor of Technology, Mechanical Engg.
Toc H Institute of Science and Technology

SKILLS

Automation Anywhere | IQ Bots | Forms | Database
UiPath | Document Understanding | Action Center
REFramework | APIs | LINQ | VBA & Macros
